## Water Management Policy

### Preamble:

National B.Ed. College of Higher Education is situated in prime rural location of Murgichak, Mohammadpur, Janipur, Patna where there is no water scarcity. But the students are made aware about water conservation policy of the college in beginning of the course during the orientation programme. The students are realized that every single drop of water is very precious and should be utilized with ultimate care and not be wasted.

### Statements:

National B.Ed. College of Higher Education committed to conserve water resources and practice rain water harvesting in order to replenish and recharge ground water resources.

### Objective:

1. To ensure clean and safe drinking water to the student teachers that present in the campus.
2. To ensure continues supply of water throughout the year. iii. To replenish ground water though rain water harvesting. iv. To minimize wastage of water in the campus.

### Action Plan:

1. The Institution has good storage capacity of water for cleaning and drinking purposes.
2. Rain water harvesting pit is also there for collecting rain water.
3. Student is given awareness on conservation of water throughout the year.
4. The college maintains leak proof water fixtures.
5. For waste water management the staff and students are advised to minimize water wastage by turning off taps.
6. There is availability of proper functional drainage system in the college.
7. Immediate measures to deal with water leakage through taps, Pipes, tanks, Toilets, flush etc.
